Mablethorpe Motorcycle sand Racing Club Ltd.

Risks of Sandracing

Motor sport including Sand Racing is an extremely dangerous activity. It is important that Competitors think very carefully about the risks they are undertaking when they compete. It must be understood by all entrants that there will be accidents and that death could occur or be permanently disabled or sustain serious injury and it could be you. All competitors must appreciate that they participate in Sand Racing entirely at their own risk. The organisers of this Club will do their reasonable best to make the event as safe as possible, there will inevitably be occasions when mistakes are made, it must however be recognised by all Riders that where an accident occurs in such circumstances, any fault on the part of the organisers will not be the principal cause of any serious injury sustained. The dominant cause of any serious injury will be the fact that the accident happened whilst racing in a competitive environment. The risk of accidents are high and all competitors must consent to this. All Parents / Guardians must ensure that their Junior riders under the age of 18 years read this and understand before signing.

Tides

Sign _____

Weather conditions which differ from the average will have an effect on the difference between predicted and actual tide times, strong winds can hold the Tide in or push it out, air pressure can also cause fluctuations in predicted levels.

No responsibility can be taken for any consequences arising from such variations.
